# EFO<sup>®</sup>

## **The Greenest Story Ever Told in Down Lighting**

Fiberstars' EFO (Efficient Fiber Optics) is a breakthrough in fiber optic lighting technology that changes the relationship between lighting and energy in a dramatic way. EFO's unique non-imaging optics transfer light efficiently from the source to the new EFO Opticore<sup>®</sup> fiber.

## **One 68 watt EFO lamp delivers the center beam candlepower of eight 50 watt MR16 EXN Halogen lamps—replacing a total of 400 watts!**

Fiberstars EFO is the most efficient fiber optic lighting system in the world. It's more efficient than halogen and other incandescent lighting, as well as compact fluorescent lamps.

# *focus:* **Environment**

**project:** Trammel Crow retrofit  
**location:** Houston, Texas

**project:** Cinemark  
**location:** Grapevine, TX

**after:** Fiberstars EFO  
1,140 watts  
17 lamp changes per year

**before:** Traditional MR16 accent lighting  
5,120 watts  
222 lamp changes per year

# EFO<sup>®</sup>

EFO can help customers achieve the light levels they require and still comply with new energy regulations: ASHRAE/IESNA 90.1.

## **Compliance without Compromise**

- Saves up to 80% on energy consumption
- Saves on maintenance – one lamp to change for eight fixtures
- Can save one watt of HVAC in every three watts of lighting saved because there is no heat in the light
- \$12.7 million in government R&D support to date assures continuous improvement in this state-of-the-art technology

The innovative technology, patented by Fiberstars, encompasses new CPC<sup>™</sup> (compound parabolic collector) optics surrounding the core of a 68 watt HID lamp; new optics to connect the fiber to the illuminator, a proprietary, optically pure and flexible new fiber made in the U.S. by Fiberstars; and specially designed EFO fixtures which adjust to provide angles of 15°, 25°, 40° and 60°.

EFO is easy to specify. There are only three components – the illuminator, fiber and fixture. EFO fiber is custom cut at the factory and shipped to the job site ready to install in an easy “plug ‘n play” manner. The fiber simply plugs into both the illuminator and the fixture like a phone jack into a wall outlet. We call this system FiberJacks<sup>™</sup>.

- At retail, EFO downlights provide excellent “power alley” merchandise spotlighting without heat and help reduce watts per square foot without reducing light
- Silent, compact, and fanless illuminator with easy lamp change feature
- Flexible, optically pure, and high quality fiber – the only continuously extruded large core fiber in the world
- Large core fiber fixtures satisfy a variety of installation needs
- EFO can also be used with stranded FiberSpots<sup>®</sup> fiber and all Fiberstars’ stranded fiber fixtures. The EFO optics deliver light to the fiber so efficiently that a stranded fiber EFO system is also more efficient than incandescent lamps and any other fiber optic lighting system
- No heat, UV or IR emitted from the light fixture

\*Available for the most popular fiber sizes.

## **EFO LIGHTING SYSTEM**

efficient\_reliable\_flexible

The three components in EFO are the illuminator, the fiber, and the fixtures.

EFO 4+4 utilizes a 68 watt metal halide lamp that drives two output ports. Each port connects up to four 10mm large core fibers for a total of eight fixtures per illuminator.

**project:** Whole Foods  
**location:** Colorado Springs, Colorado

# EFO ILLUMINATORS

## description\_benefits\_dimensions

68 watt metal halide

### EFO-4+4 ILLUMINATOR

#### Description:

Excellent for commercial downlighting applications with large core fiber plug and play connectors.

#### Benefits:

- U.L. listed for damp locations
- Fanless and silent
- Extremely energy efficient with patented CPC reflectors
- Accommodates up to eight 12/10mm large core fibers through dual ports
- 68W metal halide lamp—average rated life 6,000 hours
- Easy access for lamp replacement
- Plug and play fiber connections

#### Dimensions:

Available 2005

68 watt metal halide

### EFO-3+3 ILLUMINATOR

#### Description:

Excellent for commercial downlighting applications with large core fiber plug and play connectors.

#### Benefits:

- U.L. listed for damp locations
- Fanless and silent
- Extremely energy efficient with patented CPC reflectors
- Accommodates up to six 14/12mm large core fibers through dual ports
- 68W metal halide lamp—average rated life 6,000 hours
- Easy access for lamp replacement
- Plug and play fiber connections

#### Dimensions:

Available 2005

68 watt metal halide

### EFO-2+2 ILLUMINATOR

#### Description:

Excellent for commercial downlighting applications with large core fiber plug and play connectors.

#### Benefits:

- U.L. listed for damp locations
- Fanless and silent
- Extremely energy efficient with patented CPC reflectors
- Accommodates up to four 17/15mm large core fibers through dual ports
- 68W metal halide lamp—average rated life 6,000 hours
- Easy access for lamp replacement
- Plug and play fiber connections

#### Dimensions:

68 watt metal halide

### EFO-1+1 ILLUMINATOR

**Description:**  
Excellent for commercial downlighting applications with both large core and stranded fiber.

- Benefits:**
- U.L. listed for damp locations
  - Fanless and silent
  - Extremely energy efficient with patented CPC reflectors
  - Accommodates 1,000 stranded fibers and large core fiber harnesses through dual ports
  - 68W metal halide lamp – average rated life 6,000 hours
  - Easy access for lamp replacement

**Dimensions:**

68 watt metal halide

### EFO-AG ILLUMINATOR

**Description:**  
Excellent for outdoor landscape lighting applications with both large core and stranded fiber.

- Benefits:**
- U.L. listed for wet locations
  - Fanless, virtually silent & completely sealed
  - Extremely energy efficient with patented CPC reflectors
  - Accommodates 1,000 stranded fibers and large core fiber harnesses through dual ports
  - 68W metal halide lamp – average rated life 6,000 hours

**Dimensions:**

## description\_ordering guide\_specifications

### EFO-4+4 ILLUMINATOR

**Description:**

EFO-4+4 is fanless and U.L. listed for damp locations. One 68 watt lamp drives two output ports, each capable of connecting up to four 12/10mm FiberJacks large core fibers, for a total of eight fixtures per illuminator. This Illuminator provides the highest light output through EFO-12/10mm fiber. The EFO-4+4 is used for interior downlighting, accent lighting, cases, cabinets and other places where a small, silent, remote light source is preferred.

68 watt metal halide

### EFO-1+1 ILLUMINATOR

#### Description:

The EFO-1+1 is fanless and is U.L. listed for damp locations. The award winning illuminator features a 68 watt metal halide lamp driving two output ports intended for use with up to 10 Opticore® large core fibers, but can also be used with 1,000 stranded FSPT fibers\*. The 68 watt metal halide lamp is coupled with Fiberstars' patented CPC reflectors to create the most efficient fiber optic illuminator in the world. The EFO-1+1 is used for interior downlighting, accent lighting, cases, cabinets and other places where a small, silent, remote light source is preferred. Previously known as "AD."

end lit

## EFO FIBERJACKS LARGE CORE FIBER

### Description:

For use with EFO-4+4, EFO-3+3 and EFO-2+2 illuminators. Each Opticore® fiber tail includes a FiberJack connector on one end and a fixture connector (bayonet) on the other end. This method of fiber connection provides the highest light output with an EFO-4+4, EFO-3+3 or EFO-2+2 illuminator. No cutting, harnessing, or ferruling required, just plug in and go. Available in standard lengths of 10' or in custom lengths from 5' to 25'. Minimum bend radius is 8x inner diameter.

The EFO-MBF-F-XX fixture requires a special FiberJacks tail that includes the flexible arm. Consult factory for details.

harnesses

## FACTORY ASSEMBLED HARNESSSES

### Description:

For use with EFO-1+1 or EFO-AG illuminators. These large core, end emitting fiber harnesses are available in four configurations. EFO-HF5-9/8-10 has five tails of EFO-9/8MM at 10' coupled to an EFO optical port. EFO-HF4-12/10-10 has four tails of EFO-12/10MM at 10' coupled to an EFO optical port. EFO-HF3-14/12-10 has three tails of EFO-14/12MM at 10' coupled to an EFO optical port. EFO-HF1-22/19-10 has one tail of EFO-22/19MM at 10' coupled to an EFO optical port. The other end of the fiber tail has fixture bayonets attached. Minimum bend radius is 8x inner diameter. Harnesses easily screw onto illuminator port hubs. The EFO-MBF-F-XX fixture requires a special harness that includes the flexible arm. Consult factory for details.

**Aperture Dimensions:** 2.0" OD (51MM OD)

<b>Rough-in:</b> 2.63" (67MM)	<b>Beam Spread:</b> 15°, 25°, 40°, AND 60°*
<b>Opticore Fibers:</b> EFO-14/12MM MAX.	<b>Finish (XX):</b> (MB)BLACK, (WT) WHITE, (PB) GOLD
<b>Recess:</b> 14.0" (356MM)	<b>Weight:</b> 1.7 LBS
<b>Bayonet:</b> ATTACHED TO FIBER TAIL	

#### Technical Remarks:

Fixtures mount to T-Bar ceiling grid with Erico 512HD Caddy Rails, Fiberstars EFO-CR rails or others.  
 Fixtures mount to hard ceiling using optional butterfly brackets, EFO-BFB.  
 \*60° beam is achieved with no lens installed. Must request at time of order.

<b>Prime Material:</b> STEEL
<b>Mounting:</b> T-BAR CEILING GRID (SHOWN), HARD CEILING (OPTIONAL)

adjustable

### EFO-MBF-F-XX MULTIBEAM FIXTURE WITH FLEX ARM

**Max. Overall Dimensions:** 3.31" OD x 18.5" H (84MM OD x 470MM H)  
**Trim/Flange Dimensions:** 3.31" OD x 0.25" H (84MM OD x 6MM H)  
**Aperture Dimensions:** 2" OD (51MM OD)

<b>Rough-in:</b> 2.63" (67MM)	<b>Beam Spread:</b> 15°, 25°, 40°, AND 60°*
<b>Opticore Fibers:</b> EFO-14/12MM MAX.	<b>Rotation Angle:</b> 360°
<b>Recess:</b> 14.0" (356MM)	<b>Max. Tilt Angle:</b> +/- 90°
<b>Bayonet:</b> ATTACHED TO FIBER TAIL	<b>Finish (XX):</b> (MB)BLACK, (WT) WHITE
	<b>Weight:</b> 2.3 LBS

#### Technical Remarks:

Same as EFO-MBF, but with an added flex arm gooseneck that allows aiming the fixture in any direction. Flex arm extends to a maximum of 14 inches from the ceiling. Mounting is the same as EFO-MBF. Consult Factory for custom fiber tail needed.  
 \*60° beam is achieved with no lens installed. Must request at time of order.

<b>Prime Material:</b> STEEL
<b>Mounting:</b> T-BAR CEILING GRID HARD CEILING (OPTIONAL)

fixed

### EFO-FAW-18-XX FIXED AIM WALL WASHER

**Max. Overall Dimensions:** 3.75" OD x 4.5" H (95MM OD x 114MM H)  
**Trim/Flange Dimensions:** 3.75" OD x 1.19" H (95MM OD x 30MM H)  
**Aperture Dimensions:** 2" OD (51MM OD)

<b>Rough-in:</b> 2.63" (67MM)	<b>Beam Spread:</b> 15°, 25°, 40°, AND 60°*
<b>Opticore Fibers:</b> EFO-14/12MM MAX.	<b>Finish (XX):</b> (MB)BLACK, (WT) WHITE
<b>Recess:</b> 12.0" (305MM)	<b>Weight:</b> 2.0 LBS
<b>Bayonet:</b> ATTACHED TO FIBER TAIL	

#### Technical Remarks:

This fixture has a fixed 18° tilt to give consistent lighting on a vertical surface. Mounting is the same as EFO-MBF.  
 \*60° beam is achieved with no lens installed. Must request at time of order.

<b>Prime Material:</b> STEEL
<b>Mounting:</b> T-BAR CEILING GRID (SHOWN), HARD CEILING (OPTIONAL)

fixed

### EFO-LPS-25-XX OR 60-XX LOW PROFILE, SIDE ENTRY

**Max. Overall Dimensions:** 5.5" OD x 3.0" H (140MM OD x 76MM H)  
**Trim/Flange Dimensions:** 5.5" OD x 0.06" H (140MM OD x 2MM H)  
**Aperture Dimensions:** 4.13" OD (105MM OD)

<b>Rough-in:</b> 4.5" (114MM)	<b>Beam Spread:</b> 25° OR 60°
<b>Opticore Fibers:</b> EFO-17/15MM MAX.	<b>Finish (XX):</b> (MB)BLACK, (WT) WHITE
<b>Recess:</b> 3.0" (76MM)	<b>Weight:</b> 3.0 LBS
<b>Bayonet:</b> ATTACHED TO FIBER TAIL	

#### Technical Remarks:

T-Bar Ceiling Grid Mount  
 EFO-LPS-25-XX = 25° Lensed Fixture  
 EFO-LPS-60-XX = 60° Unlensed Fixture with mirror  
 Since the fiber connects on the side, the low profile, side entry fixture requires less than 3.5" (89mm) of clearance above the ceiling plane for installation.

<b>Prime Material:</b> STEEL
<b>Mounting:</b> T-BAR CEILING GRID

fixed

### EFO-LPS-25-HC-XX OR 60-HC-XX LOW PROFILE, SIDE ENTRY

**Max. Overall Dimensions:** 5.5" OD x 3.0" H (140MM OD x 76MM H)  
**Trim/Flange Dimensions:** 5.5" OD x 0.06" H (140MM OD x 2MM H)  
**Aperture Dimensions:** 4.13" OD (105MM OD)

<b>Rough-in:</b> 4.88" (124MM)	<b>Beam Spread:</b> 25° OR 60°
<b>Opticore Fibers:</b> EFO-17/15MM MAX.	<b>Finish (XX):</b> (MB)BLACK, (WT) WHITE
<b>Recess:</b> 3.0" (76MM)	<b>Weight:</b> 1.7 LBS
<b>Bayonet:</b> ATTACHED TO FIBER TAIL	

#### Technical Remarks:

Hard Ceiling Mount  
 EFO-LPS-25-HC-XX = 25° Lensed Fixture  
 EFO-LPS-60-HC-XX = 60° Unlensed Fixture with mirror  
 Since the fiber connects on the side, the low profile, side entry fixture requires less than 3.5" (89mm) of clearance above the ceiling plane for installation.

<b>Prime Material:</b> STEEL
<b>Mounting:</b> HARD CEILING (HC)

effect filters

### MBF-SOL & MBF-HEX BEAM EFFECTS FILTERS

**MBF-SOL Diameter:** 2.0" (51MM)  
**MBF-SOL Thickness:** 0.125" (3.1MM)  
**For use with:** EFO-MBF, EFO-MBF-F, EFO-FAW AND EFO-AAL FIXTURES

**MBF-HEX Diameter:** 2.0" (51MM)  
**MBF-HEX Thickness:** 0.128" (3.25MM)  
**For use with:** EFO-MBF, EFO-MBF-F, EFO-FAW AND EFO-AAL FIXTURES

#### Technical Remarks:

**MBF-SOL-Lens:**  
Solite softening filter  
**MBF-HEX-Louver:**  
Hexagon filter  
Beam effect filters must be ordered with fixtures.  
For EFO-AAL fixtures, filters require mounting clips, EFO-AAL-FC. Additional filters available, consult factory.

# EFO LIGHT BARS

## description\_ordering guide\_specifications

### LIGHTBEAM

**Description:**

LightBeam by Fiberstars makes it possible to illuminate along a linear path with the light aimed exactly where it is needed and at exactly the right intensity. The light that is directed has no electrical hazard, no ultraviolet rays, and is virtually infrared free.

Low profile, linear light fixture. Square shape available in standard and compact frames, as well as medium and high wash intensities. Quality aluminum extrusion of rugged construction.

Used with EFO-1+1 or EFO-AG illuminators.

<b>EFO-LB</b>

### LIGHTBEAM QUARTER ROUND

**Description:**

LightBeam Quarter Round by Fiberstars makes it possible to illuminate along a linear path with the light aimed exactly where it is needed and at exactly the right intensity. The light that is directed has no electrical hazard, no ultraviolet rays, and is virtually infrared free.

Low profile, linear light fixture. Quarter round shape allows angular light distribution in a standard or compact frame as well as medium or high wash intensities. Quality aluminum extrusion of rugged construction.

Used with EFO-1+1 or EFO-AG illuminators.

## description\_ordering guide\_specifications

### LIGHTFRAME

**Description:**

LightFrame is specially designed for edge illumination of etched and deep carved transparent panels. LightFrame provides a receiving channel to align fibers to the edge of the panel while offering all the benefits of LightBeam. LightFrame is not intended to be used as a structural support for transparent panels. These panels must be anchored independently of the LightFrame bar. Panel must be monolithic, acrylic, or high-clarity glass (not laminated, float glass, etc.) and surface etched no more than 25%. Light penetration is 12"-24". Used with EFO-1+1 or EFO-AG illuminators.

# EFO LIGHT BARS

## description\_ordering guide\_specifications

EFO light bars

### TRIAxis

**Description:**

Similar to LightBeam, asymmetrical distribution. The unique design of this light bar has 3 different angles of distribution: 15°, 30° and 35°. This allows a broader wash of light into a display case or similar application.

**Case Lighting Recommendations:**

- (22") recommended for 24" cases
- (34") recommended for 36" cases
- (46") recommended for 48" cases
- (58") recommended for 60" cases
- (70") recommended for 72" cases

EFO port kit

### AG-1PK

**Description:** PORT KIT  
**Illuminator Type:** EFO-AG AND EFO-1+1  
(OLD ILLUMINATORS UI, AG, AD)  
FOR STRANDED FIBER ONLY, UP TO 500 FIBERS MAX.  
PER PORT

**project:** Whole Foods  
**location:** Fort Collins, Colorado

# ILLUMINATOR MOUNTING ACCESSORIES

## description

EFO caddy rails

### EFO-CR

**Description:** T-BAR CEILING CADDY RAILS - SET OF 2  
**Technical Remarks:** USED TO MOUNT EFO-1+1, EFO-2+2, EFO-3+3 AND EFO-4+4 ILLUMINATORS AND EFO-MBF, EFO-MBF-F AND EFO-FAW FIXTURES IN T-BAR GRID CEILINGS.

EFO wall mount

### AD-WM-KIT

**Description:** EFO WALL MOUNT KIT  
**Technical Remarks:** FOR MOUNTING EFO-1+1, EFO-2+2, EFO-3+3 AND EFO-4+4 ILLUMINATORS TO A VERTICAL SURFACE.

EFO butterfly clip

### EFO-BFB

**Description:** BUTTERFLY TYPE MOUNTING BRACKET  
**Technical Remarks:** USED TO MOUNT EFO FIXTURES IN PLACE OF EFO-CR FOR HARD CEILING INSTALLATIONS.

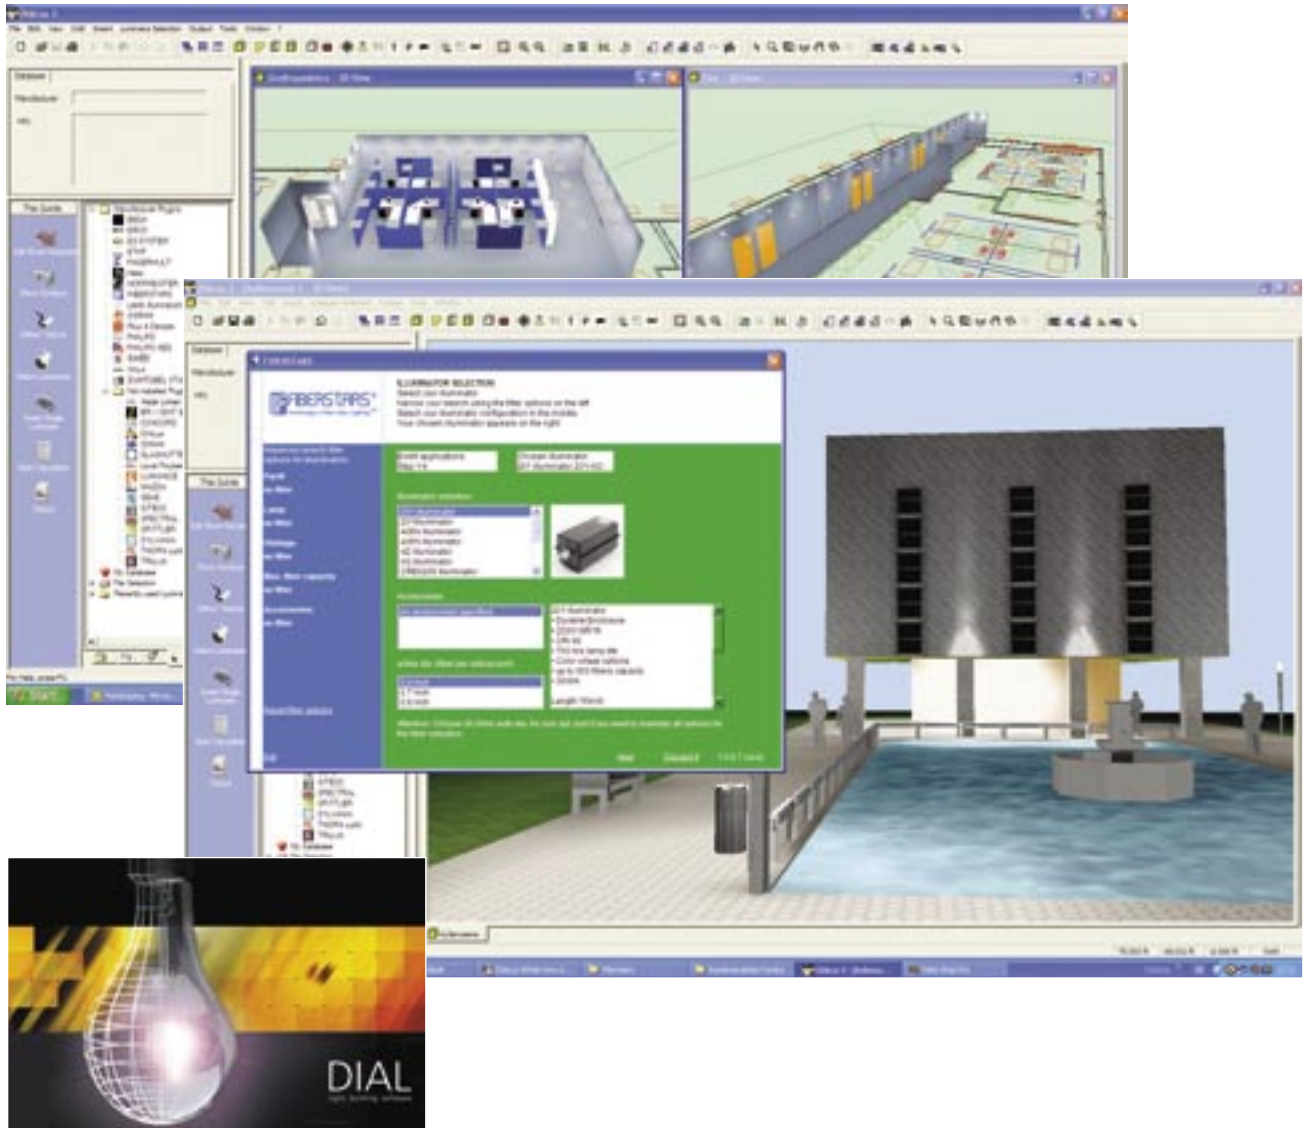

**project:** Whole Foods  
**location:** Colorado Springs, Colorado

# DIALux

## What Is It?

DIALux is a rich design/calculation/rendering software package available for free from Dial Gmbh. The Fiberstars plug-in for DIALux allows users to generate an accurate photometric file of virtually every Fiberstars system, and then use that file in the fully-functional software to layout projects. This software and plug-in combination will demonstrate how you can use Fiberstars systems to enhance your projects.

### **Why Do We Support It?**

Unlike a traditional lighting fixture, fiber optic systems contain two or more separate components that dictate the performance of the resulting system. The illuminator, fiber optic cable, length of that cable, and fixture each contribute to the overall output of the system. With so many possible combinations of products—tens of thousands in our case—traditional laboratory testing of every combination is not practical.

Instead of trying to test every combination, DIAL determines each component's influence on a system. Later, when a user packages that component in a system, DIALux calculates that component's influence, along with that of the other components, and generates an accurate collective output for the entire system.

By eliminating the arithmetic formerly involved with designing a fiber optic system, the DIALux software greatly improves the speed and accuracy of your design effort. Predicting the performance of a system is no longer a tedious effort. We believe that you will use more of our products when you know what they will deliver.

Supermarket Counter

Board Room

Theater Snack Bar

### **Where Do I Get It?**

DIALux, and the Fiberstars plug-in, are available for free from our web site: [www.fiberstars.com](http://www.fiberstars.com)

DIALux is also available directly from the manufacturer, Dial GmbH: [www.dial.de](http://www.dial.de)

For information on the latest ITL data and photometry information, please go to [www.fiberstars.com](http://www.fiberstars.com).

## EFO VOLUME 1

### **Corporate Offices**

44259 Nobel Drive  
Fremont, CA 94538
